Dec. 2008 – Current CFI Cash Index, Daily

*The Index is composed of the average of all the cash vintages.

Buy interest is beginning to step back into the market at 0.10, when sellers offer cash there. Quite different from when we saw cash trade at 0.05, which after transaction fee are factored in sellers was giving away the credits for free. Now however they are collecting \$5 per load that they sell. The cash market was similar to previous days with buyers bidding 0.05, and sellers offering 0.15-0.20, and the market only trading if 0.10 are offered. A total of 442 loads traded on the exchange today with buyers filling all offers.

Dec09 ECX EUA, Daily

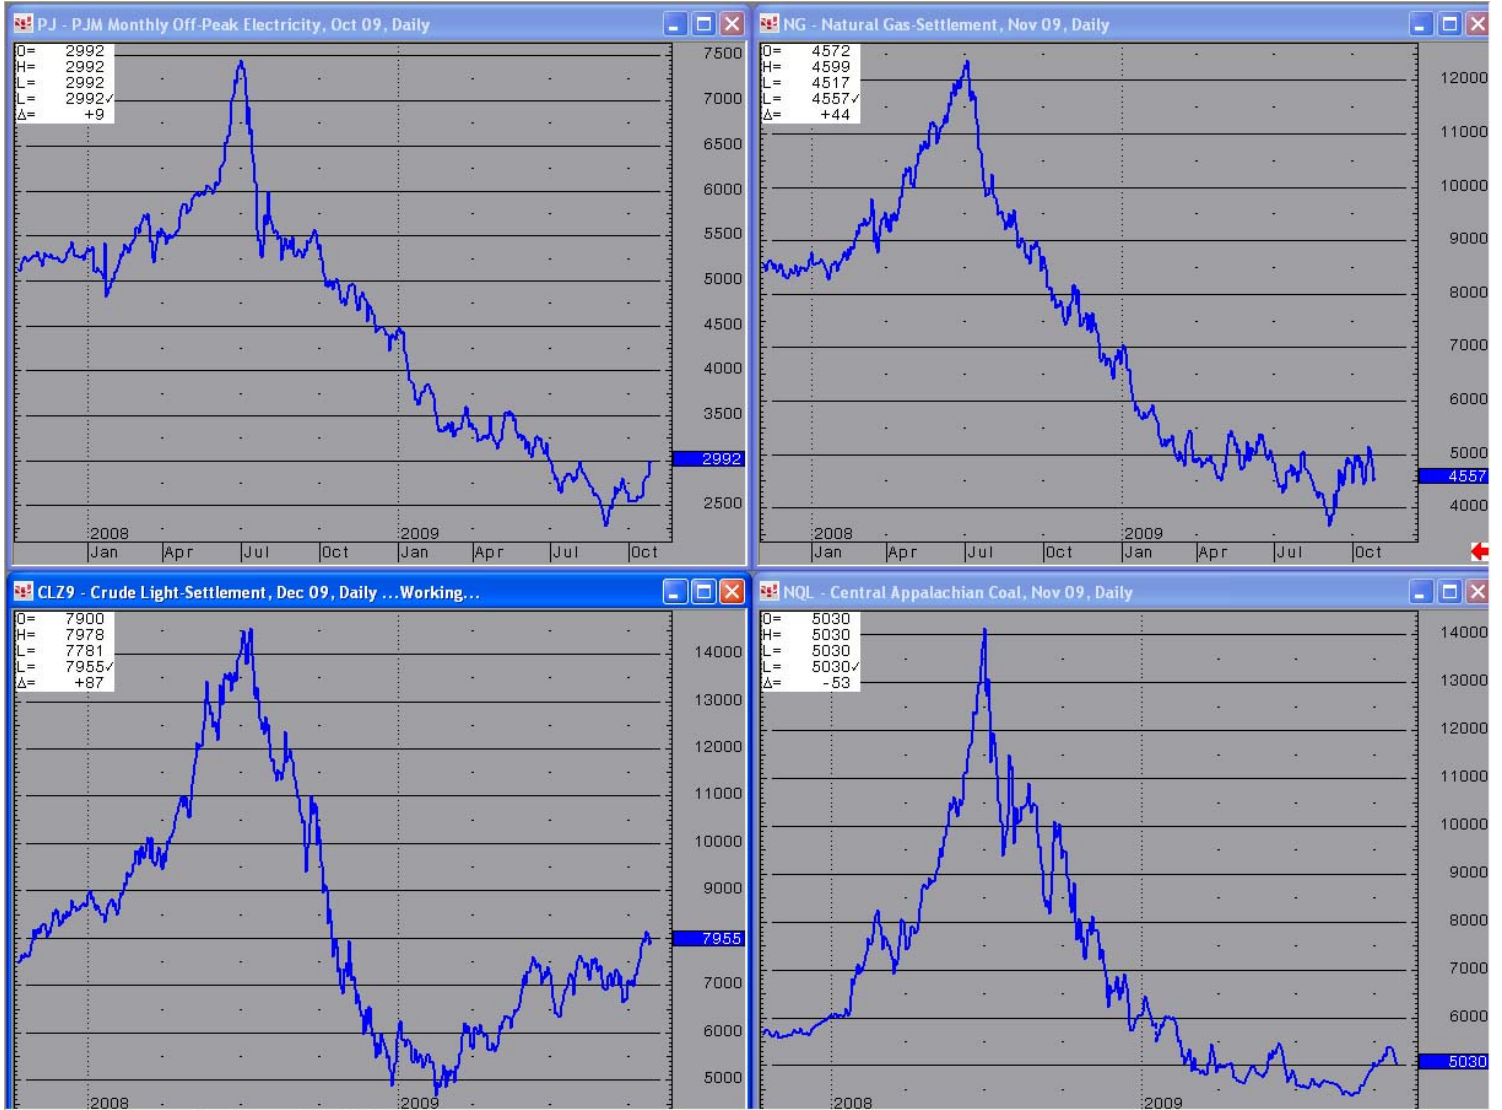

Volume was good on the day, with neither side taking a strong hold. Sellers did have a bit more of a push than buyers did with the EUA settling at €14.26, down 8 on the day. I think the boarder market still has some downside to it, which will apply pressure to the EUA, we should see the contract in the €13.50-€14 area by week's end.
